

Dear FCC,

We have supported KLove for years and have many friends in the area who also listen. This commercial free, listener supported Radio Station is a wonderful ministry that would be very difficult to replace should it become displaced by LPFM stations.

Value of KLove in my community:

- a) No commercials - a huge annoyance removed
- b) More listening time to music that offers hope, rather than sex, depression, whose boyfriend left who, etc..
- c) Changes peoples lives by providing Prayer and Question Answering services to individuals seeking support and answers about Christ.
- d) Provides a wonderful, safe, family oriented alternative with NO commercials. We love KLove.
- e) KLove's leadership & vision are strongly appreciated.

In your move forward to provide better service to America, please consider taking action to allow us to still receive this wonderful radio station, and without burdening us with excessive additional expenses. Please.

Blessings,

The Leatherwood Family
